

My family & so many other families we know listen to K-Love FM station 106.7 locally. If it were to be displaced by an LPFM broadcaster with different programming I would be very disappointed & upset. It is such a joy to listen to positive, uplifting songs and messages & not have to worry about what my 8 year old son hears. It fills my heart with joy to hear him sing the lyrics he hears on K-Love. This station has made such a difference in our day-to-day lives: it helps me feel calmer and more peaceful. There are so few positive, safe, encouraging radio stations to choose from. K-Love serves our community well for these reasons & many others.
